## Happy Old Age.

When old age carries with it hosts of friends, good health and an abundance of this world's goods, it should be as happy as any period of our existence. That is old age as it should be, but too often it means poor digestion, torpid bowels, a sluggish liver and a general feeling of ill health, despondency and misery. This condition can be greatly alleviated, however, by taking one of Chamberlain's Tablets each day immediately after supper. That will strengthen the digestion, tone up the liver and regulate the bowels, then that feeling of despondency will give way to one of hope and good cheer. Obtainable everywhere.—Advertisement.
